### **OSHA-10/FORKLIFT TRAINING**

OSHA-10 training teaches basic safety and health information to entry-level workers in construction and general industry. Training consists of a combination of formal classroom and practical, hands-on training driving a forklift. The class is designed to meet the training requirements for OSHA. Demonstrations will be performed on an obstacle course by the instructor and practical exercises performed by the student.

Certification is good for 3 years.

### **RIGGER/SIGNAL TRAINING**

Rigger training teaches how to lift and move extremely large or heavy objects with a Crane or other types of lifting equipment. The Signal training teaches how to understand the signals used when a crane is being operated.

## **SHAWN SARSFIELD-INSTRUCTOR**

Shawn has been a crane operator for over 26 years with over 8 years as an accomplished professional instructor. Shawn started operating equipment in the early 90s and moved to operating cranes in 1995, he spent the majority of his career building bridges, also operating a wide range of heavy equipment. His passion for cranes and operating equipment is just as strong today as when he started over 20 years ago. Shawn is NCCCO Accredited Practical Examiner in Rigger and Signal and an Authorized OSHA Construction 10-30 Instructor.
